INDOOR POOL ROOM DEHUMIDIFIER

SOLACE PRO

INDOOR POOL ROOM
DEHUMIDIFICATION

Dehumidification

Improves air conditions

YOUR INDOOR POOL COULD BE COSTING YOU FAR MORE THAN YOU THINK!

Indoor pools without correct ventilation or dehumidification can lead to many issues such as;

- Corrosion damage to building components and fittings
- Lower comfort levels due to high humidity
- Poor health due to high chemical concentration in the air
- Mouldy and musty odours
- High operating costs due to supplying fresh cold air into the building to combat the above problem

THE SOLACE PRO DOMESTIC DEHUMIDIFIER IS THE SOLUTION

 Reduced running costs

Improved comfort levels 

 Improved air conditions

Improved health & safety conditions 

 Drier air

Low noise operation 

REMOVES UP TO 93 LITRES OF MOISTURE FROM AN INDOOR POOL ROOM A DAY

DRIER AIR

The Solace Pro Domestic dehumidifier is designed to remove the moisture from the air in the room without losing the warmth contained within. The warm moist air is drawn through the base of the unit and passes over a cold coil to remove the moisture and chemicals. The result = drier air. For best results, we recommend that the room temperature is maintained within 5°C of the pool temperature.

SIMPLE TO INSTALL AND OPERATE

Simple to install, operate and maintain. Simply mount the Solace Pro unit onto a wall in the pool room, plug the unit into an available power point and direct the drain water back into the pool. Set your desired humidity level and leave the Solace Pro to do the rest – it's that easy!

Depending on the size of the room and intended usage more than one Solace Pro unit may be required. Simply install in the same fashion as the first unit.

WARRANTY 2 years on parts | 1 year on labour

EVO SOLACE PRO	
Rated Capacity	3.9L/h
Dehumidification capacity per day	93.6L
Max pool area	20m ²
Noise level	48dB(A)
Rated voltage/freq	220-240V~/50Hz
Rated power input	1.7kW
Rated running current	7.9A
Max. power input	4.26kW
Max running current	19.5A
Relative humidity	40~90%
Running ambient temperature range	10~32°C
Refrigerant R32	1.25kg
Dimensions mm LxWxH	1695x202x647
Weight	92kG
Condensation pipe diameter	16mm
